VS Code

Career Objective:

Dynamic Full Stack Developer with a proven track record in designing and implementing innovative web solutions. Proficient in both front-end and back-end technologies, I excel in creating responsive and scalable applications. Seeking a challenging role to leverage my expertise and contribute to the success of cutting-edge projects.

Experience:

Company Name: Amazon Sort Center.

Working From: September - 2022 to December - 2023

Roles & Responsibilities:

- Steered operational success in a warehouse sort center by overseeing inventory management, implementing streamlined sorting procedures, and ensuring adherence to quality standards.
- Collaborated effectively with cross-functional teams to optimize workflow efficiency, resolve logistical challenges, and meet stringent deadlines.

Projects:

Title: Chat Website.

Description: Crafted with MERN stack and styled with precision using styled-components, this dynamic chat web application seamlessly integrates robust functionality and visually appealing design. Elevate your communication experience with an intuitive interface, real-time updates, and a seamless blend of modern technologies.

Title: Soping Website include Chat.

Description: Implemented seamless communication features, real-time updates, and secure transactions for an enhanced user experience. Showcased expertise in full-stack development, delivering a modern and responsive e-commerce solution.
